LOCAL INTELLICENCE. ARRIVALS AND DEPARTURES

ARRIVALS. BY TRAVIS & CO.'S BAMILTON LINE: G d'Artots and son Mrs Sheady DEPARTURES.

BY OILMES AND SALTSBURY'S SALT LAKE LINE: M C Phillips G Webb

DANGEROUS .- Horsemen when riding through the streets, and near the thickly settled portion of the outskirts of town, should not ride at such a reckless pace as seems to be the fashion. Yesterday, at the lower end of Pioche street, a little girl, some three or four years old, was very nearly run over by a horseman who very nearly run over by a horseman who was riding at a very rapid rate. The child saw the horse, and scared by fear, ran right into the road and it was all the rider could do to save it. The man did all he could and was overjoyed that the child had sustained no injury, but still was censurable, and said so, for riding at such a rapid gait in the streets of the town.

Buzzino has taken a new start. Two or three months since there was a good deal of that kind of amusement going on, but it took a lull and but little was to be but it took a lest and but little was to be noticed. Now, however, it is reviving with increased force, and there are any number of disinterested patriots to be found that are willing to undertake the trials and responsibilities of office.

LUBBOCK'S MEAT MARKET, on Main street, above the Capitol saloon, was opened yesterday morning with a very fine show of meats tastefully displayed. Captain Lubbock says that he means business, and will always have on hand a varied assortment of the finest quality of meat that can be procured.

DISTRICT COURT,-The case of Hanley vs. Travis was on trial yesterday. A portion only of the jury was secured, when the panel was exhausted, and a venire for thirty jurors was ordered to be issued, returnable at one o'clock to-

FIRE.-Yesterday morning about six o'clock an alarm was caused by some sparks falling from a stove-pipe on the canvas roof of a cabin back of Meadow street. The fire was extinguished with but little damage.

No Mails.-The stage came in yester day without any mail, consequently we were without our exchanges. Wells, Fargo & Co., with their usual courtesy, helped us out with a file of Bay papers, datad Sandar 19th inst dated Sunday, 19th inst.

REGULAR,-At midday yesterday, we were treated to our usual shower, accompanied with some thunder and lightning; but the latter kept at a dis-tance, which it is welcome to do for the future, for Piochers have had enough of it for some time to come.

SCRIMMAGE.-Yesterday morning at an early hour, a couple of teamsters had an argument with fists. On this occasion victory was not on the side of the heaviest artillery, for the pursuasive powers of the lesser combatant proved most ef-

In Town.-Our genial friend Mr. D'Artois, representative of the well known liquor house of G. W. Chesley & Co., is in town, looking as gay and jolly

ARRIVED .- Yesterday Jot Travis came in by the Hamilton stage, looking well and hearty.

MRS. WHYLAND, desiring to close up her business and leave for the East, wishes to notify her friends and patrons that she will sell her large stock of goods very cheap for cash. All must be sold in thirty days. Give her a call. jy9tf M. LEVIN instructs thorow

gant cigars at the Panaca Saloon, Lacour street. One Price! One Bit! Go to ALEXANDER'S, Main street, opposite Lacour, for your drugs. my2tf

STICKEEN MINES. A correspondent of the San Francisco

This is conceded by all to be an extremely rich country; but the shortness of the season is one great drawback. In some places prospectors have sunk to the depth of over twenty feet through the frozen ground. Men are now out in all directions for fifty miles around on prospecting trips. These creek flows into prospecting trips. Deas creek flows into the lake from the north, and has its rise in a small lake about twelve miles from this point. It is all staked off in claims, many of which no doubt contain untold wealth. Some have been and others are now being prospected with a good remany of which no doubt contain untold wealth. Some have been and others are now being prospected with as good results as could be expected, but the frozen ground and high water will greatly retard progress until late in July; nevertheless all are making active preparations to take advantage of the season at the earliest opportunity. The long looked for Gold Commissioner has at last arrived, and will immediately proceed to settle the title to all disputed claims. Contracts are to be let for erecting government buildings, provisions are rapidly coming down to a fair price, owing to the recent arrival of several pack trains from Frazier River and other points, and the trail is fast approaching completion. Many men are leaving every day, while others are constantly arriving. Those going out have been forced to do so by reason of a lack of means to procure provisions until the season opens, and will naturally tell hard stories about these mines; but many with whom I have conversed say they intend coming back in about a month, if they can procure provisions at the landing. The country has been very much overrated, and unless other diggings are struck this season, will not be of a capacity for more than 2,000 men. The climate is simply splendid. Day lasts for twenty-two hours, and the remaining two hours are as bright as a moonlight night. Mr. Lawis, from Portland, Oregon, is the possessor of the Boulder claim, and is taking out some fine specimens of gold with a rocker. He was kind enough to allow us a peep at about \$500 worth of beautiful little nuggets.

This trains for the force of the lake. The force of the force of the lake. The force of the lake of the lake

at about \$500 worth of beautiful name nuggets.

Thibert's creek is some twelve miles from here, at the foot of the lake. The prospects are somewhat flattering, but nothing big has yet been struck. In the course of two weeks or so, I may be able to give you some better account of these diggings. As writing paper is one of the scarcest articles in town, and as I am indebted to Joseph Taylor for this, which is about all he has, I bid your readers farwell for the present.

F. H. Scepelk.

Tug residence of H. W. Brown, during the absence of the family, was entered and robbed.—[Eiko Independent, 17th.

MRS. TILTON'S PORTRAIT. - A New fork reporter who recently called at Tilton's house thus describes a portrait of Mrs. Tilton:

of Mrs. Tilton:

I observed an equulsite portrait on canvas gracing the wall. Again and again my cyes fell upon it. Bossething peculiarly charming and fascinating and tender hung about it. Musingly I thought the artist himself a most imaginative genius and consummate creator, or, if an actual instead of fancy subject, his brush must have been inspired. A most symmetrical head, intellect and poetry predominating; a wealth of silken brown hair; aoft and soulful eyes of richest hazel; a face of exquisite sweetness and tenderness, and ripe with culture and character; a mouth carved by the gods, and lips full, warm, and suggesting robustness of modest passion; a chin indicating a gentle firnness and abundant will; a shapely neck and graceful shoulders, and a finely developed bust—all harmony, all beauty, all the vigor and tenderness of youth, life and facination. The witching eyes seemed to brighten when looked into; a very smile so sweet as to thrill me appeared upon that face when I involun-

very smile so sweet as to thrill me ap-peared upon that face when I involuntarily fixed my gaze upon it.

The California Borax Company's property and works near Cower lake, has been purchased by a party of San Francisco capitalists who propose the immediate construction of furnaces to reduce the cinnabar and quicksilver ore found in immense quantities there. The slag or dross that has been left from the process of extracting the sulphur for the past six years, which was considered worthless, has been found to contain cinnabar, has been examined and found to contain thirty per cent. cinnabar, in cinnabar, has been examined and found to contain thirty per cent. cinnabar, in fact, mercury is found everywhere in paying quantities. Careful estimates of two feet deep or surface rock, and the dump of slag, show the existence of ore valued at over two millions of dollars. This is considered by experts to be the createst anickelized discovery. This is considered by experts to be the greatest quicksilver discovery on the coast. Suitable works are being erected under the supervision of the Lightner Bros., for the reduction of this character of ore, which requires a different process from clear cinnabar, as the presence of such large quantities of sulphur necessitates some special provision for combustion.—[Calistoga Press.

The Chronicle of last evening says:
"A very perceptible shock of earthquake was felt in this city at about 2 o'clock this morning." The shock was in deed very perceptible, and very like that of an earthquake, but the terrestrial agitation was altogether artificial and home-made. The shock was caused by an explosion of a heavy blast at the point where the site of the new mill of the Consolidated Virginia Company is being graded. In site of the new mill of the Consolidated Virginia Company is being graded. In putting in these blasts a hole is first drilled into the earth to a depth of 20 feet. At the bottom of this is fired a charge of giant powder. The giant powder is thrust down to the bottom of the hole and fired without any tamping—fired just as it lies loose at the bottom of the hole. The action of giant powder is principally downward, and a firing of a charge of it forms a cavity about the size of a flour barrel. Into this cavity are then poured several kegs of black powder, and the hole is then filled and tamped. When a charge of this kind is fired, it makes no report that is audible up town, but it report that is audible up town, but it shakes all the central part of the city.— [Virg. Enterprise, 17th.

The Tribune thinks that there is no position between the church cormorants and the Federal carpet-baggers of Utah. But there is, notwithstanding the profundity of the organ's wisdom, and its declarations to the contrary. There is no reform for Utah in the rule of church mice that steal the public cheese, and there is infinitely less hope for reform in the rule of Grant's army of bread and butter missionaries. When the people learn by the kicks and cuffs they get from both sides, that neither of these parties are their real friends, they can and will come out on a Democratic basis. THE Tribune thinks that there is no

THE funeral of Mrs. Anna M. Lyons from her residence on van Aces avenue, between Pacific and Jackson streets, but when the body was being placed in the coffin, it was found to be so warm that a physician was summoned to make an examination of the deceased, in order to piano forte. Instructions given at private residences, or our his own piano at the San Jose House.

C. C. T.—Comet Cock-Tails and elegant cigars at the Panaca Saloon, Lacour and the Panaca Saloon and the Panaca Saloo

—[S. F. Call, 17.

Yesterday about 12 o'clock Mrs.
Thomas Shone, of this place, went to
Stevens's drug store and purchased 20
grains of strychnine, and upon reaching
home swallowed the whole amount.
After taking the fatal poison she called
her husband and some of the neighbors,
and endeavored to take antidotes for it,
but without avail, and she died in a few
minutes. We understand it is the third
that she has attempted to take her life.
No cause is assigned for the act, further
than it is thought she intended only to
frighten her husband and not to take her
own life.—[Humboldt Register, 17th.

Large quantities of wood have arrived

own life.—[Humboldt Register, 17th.

Large quantities of wood have arrived at Dayton, and more is constantly coming down the river; indeed above the town the channel of the stream is literally covered with floating wood. Thousands of cords are now in the Dayton boom, and a great number of workmen are engaged in hauling it ashore and cording it up on the banks of the river. There is still a fine stage of water, and the drive this season will prove the most successful that has been had in some years.—[Virginia Enterprise, 17th.

The Consolidated Virginia Mining

THE Consolidated Virginia Mining THE Consolidated Virginia Mining Company are pushing the work of grading the site of their new mill day and night. They are now employing at that point, outside of the mine, about 200 men. A side track from the Virginia and Truckee Railroad runs along the west front of the site of the new mill, therefore all the lumber, machinery and materials of every description required in the construction can be brought upon the ground by rail. The neighborhood of the new mill is at present the liveliest place in or about the town.—[Virginia Enterprise, 17th.

WORK on the Brownlie quicksilver

Enterprise, 17th.

Work on the Brownlie quicksilver
mine, near Vallejo, is progressing favorably. About 15 or 20 men are employed,
and one tunnel is now in 200 feet. The ore is increasing in richness as the work men progress.—[S. F. Alta.
